4. FIRST AID MEASURES				
Inhalation	If inhaled, remove affected person from contaminate attention.	d area. Apply artif	icial respiration if not breathing. Seek medical	
Ingestion	Do not induce vomiting. Wash out mouth thoroughly	with water. Seek	immediate medical attention.	
Skin	Remove all contaminated clothing immediately. Was contaminated clothing before reuse or discard. Seek			
Eye	If in eyes, hold eyelids apart and flush the eyes contin flushing for several minutes until all contaminants are			
First Aid Facilities	Eyewash, safety shower and normal washroom facilit	ies.		
Advice to Doctor	Treat symptomatically.			
Other Information	For advice in an emergency, contact a Poisons Inform	ation Centre (Pho	ne Australia 131 126) or a doctor at once.	
5. FIRE FIGHTING MEASURES				
Suitable Extinguishing Media	Dry chemical, carbon dioxide, regular foam extinguis	ning agent, spray.		
Unsuitable Extinguishing Media	Avoid use of water jet for extinguishing.			
Hazards from Combustion Products	Under fire conditions this product may emit toxic and carbon dioxide and oxides of nitrogen.	l/or irritating fume	es, smoke and gases including carbon monoxide	
Specific Hazards arising from the Chemical	Combustible solid. This product will burn if exposed t	o fire.		
Decomposition Temp.	Not available.			
Precautions in connection with Fire	Fire fighters should wear Self-Contained Breathing Approtective clothing to prevent exposure to vapours o containers. Fight fire from safe location. This product	fumes. Water spi	ray may be used to cool down heat-exposed	
6. ACCIDENTAL RELEASE MEA	SURES			
Emergency Procedures	Remove all sources of ignition. Increase ventilation. E respiratory protection and full protective clothing to - dampen spilled material with water if suitable to av as vacuum to collect the material; then transfer mate recycling or disposal. Dispose of waste according to a sewers or waterways occurs inform the local water ar regulations.	minimise exposure oid airborne dust, rial in to suitable v pplicable local and	e. Sweep up material avoiding dust generation OR where possible use dustless methods such vapour tight labelled containers for subsequent d national regulations. If contamination of	
7. HANDLING AND STORAGE				
Precautions for Safe Handling	Avoid inhalation of dust, and skin or eye contact. Use when removing the product from pipes, and skin or eve with skin or clothing, if product adheres to skin remo build up of dust in the work atmosphere. Establish go hygiene i.e. washing hands prior to eating, drinking, s Avoid exposure. Do not handle until all safety precau Do not use warm or hot water. Bandage may generat	eye contact. Use di ve as soon as poss od housekeeping smoking or using to tions have been re	sposable gloves. Product will adhere on contact sible with acetone or alcohol. Prevent the practices. Maintain high standards of personal oilet facilities. ead and understood.	
Conditions for Safe Storage including any Incompatibilities	Store in a well ventilated area away from heat and sources of ignition, out of direct sunlight and moisture. Take s precautions against static electricity discharges. Use proper grounding procedures. Store away from incompatible materials such as materials that support combustion (oxidising materials). Store in suitable, labelled containers. Inspe periodically for deficiencies such as damage or leaks. Have appropriate fire extinguishers available in and near the storage area. Ensure that storage conditions comply with applicable local and national regulations. For information on the handling of Combustible dusts and grounding procedure reference should be made to Australian Standard AS/NZS 4745 - 'Code of Practice for Handling Combustible Dusts'.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupation Exposure Limit Values	Substance		Exposure Duration	Exposure Limit	•	Notes
	Continuous glass filament	Safe Work Australia	TWA	2	mg/m3	(inhalable dust) Synthetic mineral fibres
	Diphenylmethane 4,4'- diisocyanate	Safe Work Australia	TWA	0.02	mg/m3	Sen, Isocyanates, all (as NCO)
	Diphenylmethane 4,4'- diisocyanate	Safe Work Australia	STEL	0.07	mg/m3	Sen, Isocyanates, all (as NCO)
<b>Biological Limit Values</b>	No biological limits allocate	d.				
Control Banding	Not available					
Engineering Controls	system, drawing solid/dust	away from workers' bre are not sufficient to mai	athing zone. A	A flameproof	exhaust ve	with a local exhaust ventilation entilation system is required. below the exposure standards,
Respiratory Protection	an approved respirator with further information concern Reference should be made	None required when used as intended. If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable dust/particulate filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances				o relevant regulations for intenance of Respiratory
Eye and Face Protection	appropriate should be used circumstances. Eye protecti	None required when used as intended. Safety glasses with side shields, chemical goggles or full-face shield as appropriate should be used. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 (series) - Eye Protectors for Industrial Applications				
Hand Protection	Final choice of appropriate to risk assessments underta	Wear gloves of impervious material such as disposable gloves or nitrile disposable gloves included in the packaging. Final choice of appropriate gloves will vary according to individual circumstances. i.e. methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.				
Thermal Hazards	No further relevant informa	ation available.				
Body Protection	Suitable protective workwe apron is recommended whe			eck and wrist	is recomm	nended. Chemical resistant
Other Information	No exposure standards have been established for this material, however, the TWA exposure standards for dust not otherwise specified is 10 mg/m <sup>3</sup> . As with all chemicals, exposure should be kept to the lowest possible levels. Oil mist, refined mineral TWA: 5 mg/m <sup>3</sup> TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day week. Source: Safe Work Australia				owest possible levels.	

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Form	Solid
Appearance	Knitted fabric coated with sticky resin
Colour	White/off white
Odour	A unique, weak odour
Freezing Point	Not available
Boiling Point	Not available
Decomposition Temperature	Not available
Solubility in Water	Reacts with water
Specific Gravity	1.12 (25°C)
рН	Not available
Vapour Pressure	Not available
Relative Vapour Density (Air=1)	Not available
Evaporation Rate	Not available
Odour Threshold	Not available
Viscosity	Refer to Section 9: Kinematic Viscosity and Dynamic Viscosity
Partition Coefficient: n-octanol/water (log value)	Not available

Hazardous Decomposition Products	Under fire conditio and oxides of nitro		c and/or irritating fumes including carbon monoxide, o	carbon dioxide
Hazardous Polymerization	Will not occur.			
11. TOXICOLOGICAL INFORM	NATION			
Toxicology Information	No toxicity data ava	ailable for this material.		
Ingestion	Ingestion unlikely o	lue to form of product.		
Inhalation	Harmful if inhaled.	May cause respiratory irritatio	n. Inhalation of product dust can cause irritation of the ymptoms or breathing difficulties if inhaled.	nose, throat and
Skin	Causes skin irritatio		ness, itching and swelling. Repeated exposure may ca	use skin dryness
Eye	Causes serious eye	irritation. On eye contact this	product will cause tearing, stinging, blurred vision, ar	nd redness.

Causes serious eye irritation. On eye contact this product will cause tearing, stinging, blurred vision, and redness. May cause allergy or asthma symptoms or breathing difficulties if inhaled.

May cause damage to organs through prolonged or repeated exposure.

- **Respiratory Sensitisation**
- Skin Sensitisation May cause an allergic skin reaction.

Germ cell mutagenicity Not considered to be a mutagenic hazard. Suspected of causing cancer. Classified as a suspected human carcinogen. Carcinogenicity Glass filament, continuous, diphenylmethane 4,4'- diisocyanate, highly refined mineral oil and amorphous silica are listed as a Group 3: Not classifiable as to carcinogenicity to humans according to International Agency for Research on Cancer (IARC). **Reproductive Toxicity** Not considered to be toxic to reproduction. STOT-Single Exposure May cause respiratory irritation.

### **12. ECOLOGICAL INFORMATION**

STOT-Repeated Exposure

Aspiration Hazard

Ecotoxicity	No ecological data available for this material.
Persistence and Degradability	Not available
Mobility	Not available
Bioaccumulative Potential	Not available
Other Adverse Effects	Not available
Environmental Protection	Prevent this material entering waterways, drains and sewers.
Hazardous to the Ozone Layer	This product is not expected to deplete the ozone layer.

Not expected to be an aspiration hazard.

## SAFETY DATA SHEET – RAPP-IT STEEL PUTTY 90MM

Infosafe No ™ LQ5PY	Version No. 3.0 Issue Date: 18/05/2022 ISSUED by MARINE & INDUSTRIAL MARKETING PAGE: 1 OF		
1. IDENTIFICATION			
GHS Product Identifier	RAPP-IT STEEL PUTTY 90MM		
Company Name	MARINE & INDUSTRIAL MARKETING (ABN32051 014 049)		
Address	12/14 Argyle Street, Albion, Queensland 4010 Australia		
elephone/Fax Number	Tel: +61 7 3262 3755 Fax: +61 7 3262 3255		
Emergency Phone Number	Poisons Centre (13 11 26) 24hrs (24 hour a day available) NZ National Poisons Centre: 0800 764 766 (0800POISON) 24/7		
	INFOTRAC 24/7: Australia: 1-300-366-961 USA/Canada: 1-800-535-5053 All other countries: 1-352-323-3500		
Recommended use of the chemical and restrictions on use	Adhesives, Sealants.		
2. HAZARD IDENTIFICATION			
GHS classification of the substance or mixture	Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GH including Work, Health and Safety Regulations, Australia. Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road ar Rail. (7th edition) Skin corrosion/irritation: Category 2 Eye Damage/Irritation: Category 2 Sensitisation - skin: Category 1 Specific target organ toxicity (single exposure): Category 3 (Respiratory tract irritation)		
Signal Word(s)	WARNING		
Hazard Statement(s)	H315 Causes skin irritation. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H335 May cause respiratory irritation.		
Pictogram(s)	Exclamation mark		
Precautionary Statement – Prevention	P261 Avoid breathing dust. P264 Wash skin thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P272 Contaminated work clothing should not be allowed out of the workplace. P280 Wear protective gloves/eye protection/face protection.		
Precautionary Statement – Response	<ul> <li>P312 Call a POISON CENTER/doctor if you feel unwell.</li> <li>P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.</li> <li>P302+P352 IF ON SKIN: Wash with plenty of water/soap.</li> <li>P333+P313 If skin irritation or rash occurs: Get medical advice/attention.</li> <li>P362+P364 Take off contaminated clothing and wash it before reuse.</li> <li>P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.</li> <li>Continue rinsing.</li> <li>P337+P313 If eye irritation persists: Get medical advice/attention.</li> </ul>		
Precautionary Statement – Storage	P403+P233 Store in a well-ventilated place. Keep container tightly closed.		
Precautionary Statement – Disposal	P501 Dispose of contents/container to an approved waste disposal plant.		
Other Information	No exposure to free respirable silica is anticipated during normal use of this product. During cutting or demolition operations crystalline silica may become available for breathing. Harmful to aquatic life with long lasting effects. Sanding and grinding dusts may be harmful if inhaled. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications.		

Infosafe No ™ LQ5PY	Version No. 3.0 Issue Date: 18/05/20	22 ISSUED by MA	ARINE & INDUSTRIAL MARKETING	PAGE: 2 OF 7

Protection for First Aiders	No action shall be taken involving any perso equipment and clothing to prevent exposur Wash contaminated clothing thoroughly with	e.		sonal protective
Other Information	For advice in an emergency, contact a Poiso	ns Information Centre	e or a doctor at once. (131 126)	
5. FIRE FIGHTING MEASURES				
Suitable Extinguishing Media	Use appropriate fire extinguisher for surrou	nding environment.		
Hazards from Combustion	Under fire conditions this product may emit			ides of sulphur

Hazards from Combustion Products	Under fire conditions this product may emit toxic and/or irritating fumes, smoke and gases including oxides of sulphur, halogenated compounds, metal oxides, carbon monoxide, carbon dioxide and oxides of nitrogen.
Specific Hazards arising from the Chemical	This product is non combustible. However heating can cause expansion or decomposition leading to violent rupture of containers.
Hazchem Code	Not regulated
Decomposition Temp.	>150°C
Precautions in connection with Fire	Isolate the area. No action shall be taken involving any personal risk or without suitable training. Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat-exposed containers. Fight fire from safe location. This product should be prevented from entering drains and watercourses.

### 6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures	No action shall be taken involving any personal risk or without suitable training. Increase ventilation. Evacuate all unprotected personnel. Do not touch or walk through spilled material. Wear sufficient respiratory protection and full protective clothing to prevent exposure. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid exposure to spillage by sweeping up material avoiding dust generation - dampen spilled material with water if suitable to avoid airborne dust, OR where possible use dustless methods such as vacuum to collect the material; then transfer material in to suitable labelled containers for subsequent recycling or disposal. Keep containers tightly closed. Wash surfaces well with soap and water. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations. Recommended Materials - Filter type: High-efficiency particulate air (HEPA) filter

Hazardous Decomposition Products			e of toxic and/or irritating fumes including: oxides of sι nonoxide and carbon dioxide.	ılphur,
Hazardous Polymerization	Not available			

vichlorohydrin, bisphenol A resin 050 (rat): > 2 g/kg s-[4-(2,3-epoxipropoxi)phenyl]propane
)50 (rat): 15000 mg/kg
vichlorohydrin, bisphenol A resin 950 (rabbit): > 2 g/kg
s-[4-(2,3-epoxipropoxi)phenyl]propane )50 (rabbit): 23000 mg/kg
gestion of this product may irritate the gastric tract causing nausea and vomiting.
ay cause respiratory irritation. Inhalation of product dust can cause irritation of the nose, throat and respiratory stem. Chronic exposure to this material may aggravate existing respiratory disorders and lung disorders such bronchitis, emphysema and asthma. Onset and progression are related to dust concentrations and duration of posure.
uses skin irritation. Skin contact will cause redness, itching and swelling. Repeated exposure may cause skin dryness Id cracking and may lead to dermatitis. May cause an allergic skin reaction.
vichlorohydrin, bisphenol A resin assification: Skin Corrosion/Irritation: Category 2
ecies: Rabbit esult: Mild irritant
s-[4-(2,3-epoxipropoxi)phenyl]propane assification: Skin Corrosion/Irritation: Category 2
ecies: Rabbit posure time: 4 hours esult: Mild irritant
ecies: Rabbit posure time: 4 hours ore: 0.8 (Erythema/Eschar)
vecies: Rabbit posure time: 4 hours ore: 0.5 (Edema)
